

## COMPACT, YET POWERFUL

The OWX-50 on-wall speaker offers performance and power in a compact design. Seamlessly integrating into any home cinema, the OWX-50 is the perfect choice for those who require high output from a small footprint.

A constant directivity horn and compression driver cleverly sit within the sleek and unobtrusive profile, while the square-shaped baffle allows extensive placement options with screen subwoofers.

With extensive output, dynamic range and consistent dispersion, the OWX-50 can be used as a screen, surround or overhead speaker, offering the benefit of positional flexibility without sacrificing performance.

OWX-50 front without grille

OWX-50 back with bracket

### Adjustable bracket

Using the included bracket, the OWX-50 can be mounted flush against the wall or at adjustable angles up to 30 degrees for optimal sound dispersion.

Grille is included!

### High performance

A Krix constant directivity horn and compression driver deliver ultra-consistent dispersion and high output.

### Compact design

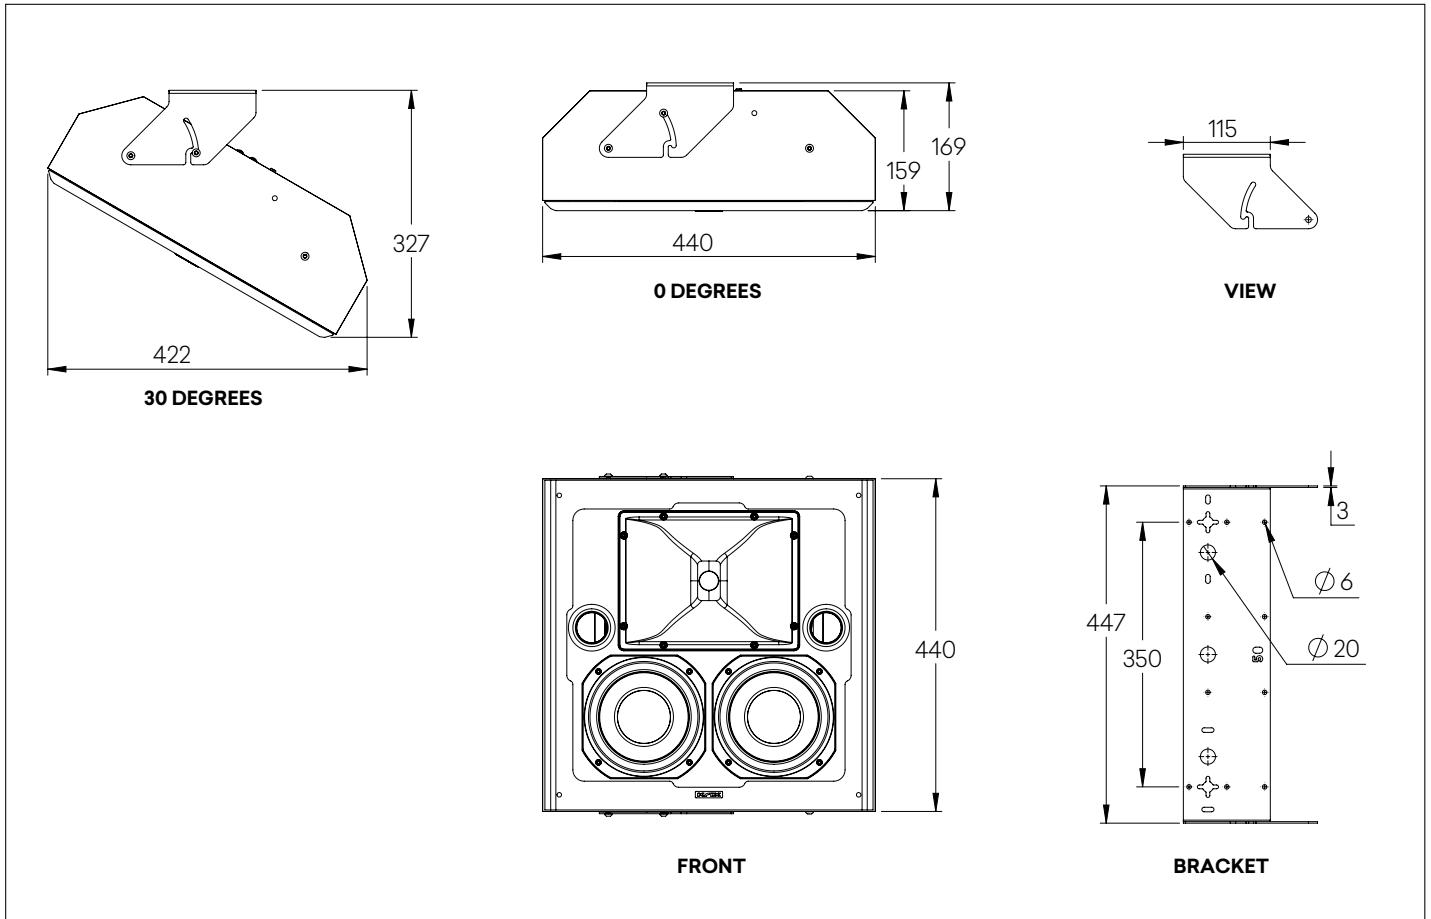

A sleek, compact and space-saving design that blends aesthetics with functionality, complete with an included grille.

### Australian made

Krix has proudly engineered and manufactured speakers in Australia since 1974.

**DIMENSIONS**

OWX - 50		ENCLOSURE AND TERMINALS	
<b>PERFORMANCE</b>		<b>DIMENSIONS</b>	
<b>Frequency range</b>	60 Hz - 20 kHz (in room response)	<b>Including grille</b>	440mm high x 440mm wide x 159mm deep
<b>Power handling</b>	50 - 500 Watts RMS recommended amplifier power	<b>Including bracket</b>	447mm high x 440mm wide x 169mm deep
<b>Sensitivity</b>	97 dB (2.83V / 1m)	<b>WEIGHT</b>	
<b>Impedance</b>	4 Ohms	<b>OWX-50 with grille</b>	14.4 kg
<b>Configuration</b>	2-way	<b>Bracket</b>	1.7 kg
<b>Crossover point</b>	1.9 kHz	<b>DRIVERS</b>	
<b>Low frequency driver</b>		Dual 165mm (6 1/2") paper cone driver. 50mm (2") voice coil wound on high powered kapton former, with ventilated spider and aluminium flux stabilisation ring for low distortion.	
<b>High frequency driver</b>		A Krix patented, short throw constant directivity horn, coupled to a compression driver with a 1" throat 1 1/2" voice coil.
